Dare to Lead™ Training Experiences

How do we develop *braver, more daring leaders*?
How do we value *courage to navigate change*
and drive performance results?

Based on the research of Dr. Brené Brown, Dare to Lead™ is an empirically based courage-building program for Leaders and Change Agents. Brené Brown is the author of five #1 *New York Times* bestsellers including *Dare to Lead*.

What is Dare to Lead™ Training?

The most significant finding from Brené's latest research is that courage is a collection of four skill sets that are teachable, measurable, and observable. The Dare to Lead™ program focuses on building brave cultures and driving performance by:

- Navigating Vulnerability
- Leading with Values
- Building Trust
- Rising from Setbacks

Participants will explore Dr. Brené Brown's research, learn how to connect and navigate difficult conversations, and hold themselves and others accountable for success.

Delivered by Certified Dare to Lead™ Facilitator Amy Leneker.
